murky water.
"Here he is!" he shouted out presently. "He's right here, fellows! I kin see his legs sticking up. He's drownded, 1 guess!"

And so he was. We got a rope and succeeded in pulling him up. He had dived straight down and thrust his head into the muddy bottom, which nad neld him fast. I laid him out on the side of the pier. He was qutte dead. All means of restoration were tried, but he was gone forever. There he lay, with the black mud in his short, red hair. He had drunk of the river of death, and would breathe and speak no more.

After sending for the Coroner, and leaving apo-Heeman in charge of the body, I went to the little aundry shop to tell Mrs. Tymcock what had happened. There she was, over her steaming washtub. She looked up as I entered, but when she saw my face she instantly left her tub and came towards me, wijing her arms, her eyes fixed with

an intense gaze on mine. " Is Tommy drunk again 7" she said, with a des-

If the problematical and invisible Mr. Tymcock had had one-tenth the affection for Giving a Pathetic Picture of his wife that Tommy had for her he would have been one of the most devoted husbands in Christ-

Though Tommy's appetite for gore might lead him into conflicts with his peers in the office and out of it, his quickness and willingness attracted the attention of his employers, and he had a fair show to get on in the world. He began to be reconciled to his lot, for the time being at least. I think he always had a purpose in the background to put his savings into the butcher trace ween the time came, and live happy ever after. As for his mother, her anticipations of fortune ran high; she seemed to believe that Tommy would yet live to be President of the Western Union, and live in a palace and drive a four-in-hand in the Park. She began to recall the better days of her youth, and intimated that her father had not only been a substantia farmer, but had had connections even higher in the social scale. Her good hopes had a physical effect upon her; her face grew plumper, and her voice lost some of its sharp edge. She sang to herself over her tubs, and was not so tired at the day's end as formerly.

whom he had thrashed one evening I had an unpleasant surprise.

Tommy called with a message. I saw by the date that it was some hours overdue, and, on going father—as he expressed it. As his father was out in the hall to speak to him about it, it was imto all practical intents and mediately perceptible that the boy had been drink-non - existent, this might seem lng. He not only had been drinking—he was a little strained, out I inferred that the father might have been used to cast aspersions on the mother with, but although Tommy aging him to enter the messenger service I had

A STEP IN THE WRONG DIRECTION.

It was no use remonstrating with him in his present condition. I adopted pathological measures of the most stringent kind. For an Bour Tommy underwent a succession of shocks of a drastic and searching nature, emerging from them at length in an exhausted, but otherwise more favorable condition. Then I sent him back to report at the office, and to make out the best case for himself

A crowd of boys were bathing off the somewhere under water and would come up in a tory about his errands again, but they did not sing, where he departed this life. There are suspect the actual state of the case, and I fancy various degrees of good fortune in the world; this Tommy assisted their unsuspicion by teiling them a lot of lies. But when I saw Mrs. Tymcock (as I was unprepared. In the end she told me her story. The man to

Tommy was born, and this event completed Mr. Tymcock's estrangement; he refused to contribute anything to the unhappy woman's support, and she, after a prolongecourse of suffering in hospitals and elsewhere, was obliged to become a washerwoman or starve. Mr. Tymcock, though he would give her nothing, yet so ar recognized their relationship as to relieve her, from time to time, of a large part of her savings; and he would doubtless have continued this

the more because, though in an evil sense, he was

the son of the father.

Her forecast proved right and mine wrong.
Tommy sinned again, and this time he was detected and dismissed from his position. His mother welcomed his home with a perverse outburst of joy. He was all her's now; he should never leave her. She would work herself to death for him. But he resented the surveillance she attempted to keep upover him; he misunderstood it. Again and again he broke away from her, but he always came back and she always received him with a yet fonder embrace and indulgence.
